

1. Executive Summary & Core Metrics

- Mean Total Sales: \$123,650.48 (95% CI: [\$103,776.35, \$143,524.61])
- Model Goodness-of-Fit (R2): 0.8839 (88.4% variance explained)
- Pricing Impact: Statistically Significant (p = 1.3037e-33)

2. Feature Distributions

3. Pearson Correlation Analysis

4. Actionable Business Recommendations

1. Price Optimization: Pricing heavily dictates revenue growth. Focus margin expansion efforts on core SKUs.
2. Churn Mitigation: Higher monthly charges correlate with churn. Implement tiered loyalty discounts.
3. Regional Strategy: ANOVA confirms uniform regional performance; maintain balanced regional allocation.
